ALL SAINTS CHURCH OF ENGLAND (VA) INFANT AND NURSERY SCHOOL

SELSTON CHURCH OF ENGLAND (VC) INFANT AND NURSERY SCHOOL

MISSION STATEMENT

Opening hearts and minds through the grace and love of God

At All Saints Infant and Nursery School and Selston Infant and Nursery School children always come first and we try to nourish, challenge, prepare and inspire them within a Christian ethos.

We believe in valuing all who contribute towards the successful running of our schools including children, parents, carers, governors, teaching and non-teaching staff.

This Mission Statement lies at the heart of our schools' aims. It is the philosophical basis for all of the schools' policies and through these, for everything that happens in and round our schools. Our aspiration is for everyone at All Saints and Selston to:

- feel happy, secure, safe and valued at school
- develop a growing awareness of their own inner self and spirituality, and of the power of the Christian faith to transform lives
- develop healthy relationships based on care, trust, compassion and forgiveness
- show acceptance for and understanding of others who may have different beliefs or needs
- strive for the highest standards of achievement, developing the confidence and skills to be independent, motivated and self-disciplined learners
- have a positive approach to life, contributing to the well-being of the community and building hope for the future

We hope that children will leave our schools with open hearts and minds, ready to respond to the opportunities that lie before them and to experience the joy of life in all its fullness.

Mental Health and Wellbeing Policy

Policy Statement

Mental health is a state of well-being in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. (World Health Organization)

In our school our Christian vision shapes all we do. We believe that everyone is a child of God and as such deserves the care and support they need to live a full, happy and hopeful life.

Therefore, we aim to promote positive mental health for all members of our school community – pupils, staff and governors. We pursue this aim using both universal, whole school approaches and specialised, targeted approaches aimed at vulnerable pupils. These focus on building pupils' resilience with a view to preventing problems before they arise.

In addition to promoting positive mental health and wellbeing, we aim to recognise and respond to need as it arises. By developing and implementing practical, relevant and effective mental health and wellbeing policies and procedures we can promote a safe and stable environment for pupils affected both directly, and indirectly by mental health and wellbeing issues.

Scope

This policy describes our school's approach to promoting positive mental health and wellbeing. It is intended as guidance for all staff including non-teaching staff and governors.

It should be read in conjunction with our medical policy in cases where a pupil's mental health and wellbeing overlaps with or is linked to a medical issue and the SEND policy where a pupil has an identified special educational need.

The policy aims to:

- Promote positive mental health and wellbeing in all staff and pupils;
- Increase understanding and awareness of common mental health issues;
- Alert staff to early warning signs of poor mental health and wellbeing;
- Provide support to staff working with young people with mental health and wellbeing issues;
- Provide support to pupils suffering mental ill health and their peers and parents/carers;

- Ensure pupils feel able to talk openly about their problems without feeling shame or stigma;
- Ensure pupils are supported to manage times of change or stress;
- Ensure pupils know what they can do to maintain positive mental health.

Lead Members of Staff

Whilst all staff have a responsibility to promote the mental health of pupils. Staff with a specific, relevant remit include:

- Joanna Redfern - Designated Safeguarding Lead / CPD Lead
- Tracy Gibbs – Designated Safeguarding Lead / Pastoral Lead
- Ellen Munroe – Inclusion Lead
- Katherine Harrison - SENCO
- Lynette Hardwick – Designated Safeguarding Lead /Mental Health Lead

Any member of staff who is concerned about the mental health or wellbeing of a pupil should speak to the Mental Health Lead in the first instance. If there is a fear that the pupil is in danger of immediate harm then the normal child protection procedures should be followed with an immediate referral to the DSL or the head teacher. If the pupil presents a medical emergency then the normal procedures for medical emergencies should be followed, including alerting the first aid staff and contacting the emergency services if necessary.

Where a referral to CAMHS is appropriate, this will be led and managed by the SENCO.

Individual Care Plans

It is helpful to draw up an individual care plan for pupils causing concern or who receives a diagnosis pertaining to their mental health. This should be drawn up involving the pupil, the parents and relevant health professionals. This can include:

- Details of a pupil's condition;
- Special requirements and precautions;
- Medication and any side effects;
- What to do, and who to contact in an emergency;
- The role the school can play.

Teaching about Mental Health and Wellbeing

The skills, knowledge and understanding needed by our pupils to keep themselves and others physically and mentally healthy and safe are included as part of our developmental PSHE curriculum, 'Talking Points'.

The specific content of lessons will be determined by the specific needs of each cohort of pupils but there will always be an emphasis on enabling pupils to develop the skills, knowledge, understanding, language and confidence to seek help, as needed, for themselves or others.

We will follow the PSHE Association Guidance, and our PSHE programmes 'Heartsmart' and 'Talking Points', to ensure that we teach mental health and emotional wellbeing matters in a safe and sensitive manner which helps rather than harms.

Signposting

We will ensure that staff, pupils and parents are aware of sources of support within school and in the local community.

We will display relevant sources of support in communal areas and toilets and will regularly highlight sources of support to pupils within relevant parts of the curriculum. Whenever we highlight sources of support, we will increase the chance of pupil help-seeking by ensuring pupils understand:

- What help is available;
- Who it is aimed at;
- How to access it;
- Why to access it;
- What is likely to happen next.

Warning Signs

School staff may become aware of warning signs which indicate a pupil is experiencing mental health or emotional wellbeing issues. These warning signs should always be taken seriously and staff observing any of these warning signs should communicate their concerns to Katherine Harrison SENCO.

Possible warning signs include:

- Physical signs of harm that are repeated or appear non-accidental;
- Changes in eating / sleeping habits;
- Increased isolation from friends or family, becoming socially withdrawn;
- Changes in activity and mood;
- Lowering of academic achievement;
- Talking or joking about self-harm or suicide;
- Abusing drugs or alcohol;
- Expressing feelings of failure, uselessness or loss of hope;
- Changes in clothing – e.g. long sleeves in warm weather;
- Secretive behaviour;
- Skipping PE or getting changed secretly;
- Lateness to or absence from school;
- Repeated physical pain or nausea with no evident cause;
- An increase in lateness or absenteeism;
- Parents/carers experiencing mental health problems.

Managing disclosures

A pupil may choose to disclose concerns about themselves or a friend to any member of staff so all staff need to know how to respond appropriately to a disclosure.

If a pupil chooses to disclose concerns about their own mental health or that of a friend to a member of staff, the response should always be calm, supportive and non-judgemental.

Staff should listen, rather than advise and their first thoughts should be of the pupil's emotional and physical safety, not exploring the reasons why.

All disclosures should be recorded in writing and held on the pupil's confidential file. This written record should include:

- Date;
- The name of the member of staff to whom the disclosure was made;
- Main points from the conversation;
- Agreed next steps.

This information should be shared with a DSL who will store the record appropriately and offer support and advice about next steps.

Confidentiality

We should be honest with regards to the issue of confidentiality. If it is necessary for us to pass on our concerns about a pupil, then we should discuss with the pupil:

- Who we are going to talk to;
- What we are going to tell them;
- Why we need to tell them.

We should never share information about a pupil without first telling them. Ideally, we should receive their consent, though there are certain situations when information must always be shared with another member of staff and / or a parent, particularly if a pupil is in danger of harm.

It is always advisable to share disclosures with a colleague and DSL. This helps to safeguard our own emotional wellbeing as we are no longer solely responsible for the pupil; it ensures continuity of care in our absence and it provides an extra source of ideas and support. We should explain this to the pupil and discuss with them who it would be most appropriate and helpful to share this information with.

Parents should be informed if there are concerns about their child's mental health and wellbeing. If there are reasons to believe that there may be underlying child protection issues, parents should not be informed, and the DSL must be informed immediately.

Working with Parents

Where it is deemed appropriate to inform parents, a sensitive approach is required. Before disclosing to parents we should consider the following questions (on a case by case basis):

- Can the meeting happen face to face? This is preferable.
- Where should the meeting happen? At school, at their home or somewhere neutral?
- Who should be present? Consider parents, the pupil, other members of staff.
- What are the aims of the meeting?

It can be shocking and upsetting for parents to learn of their child's issues and many may respond with anger, fear or upset during the first conversation. We should be accepting of this (within reason) and give the parent time to reflect.

Further sources of information should be highlighted and leaflets available to take away where possible. Parents will often find it hard to take much in whilst coming to terms with such news. Sharing sources of further support aimed specifically at parents can also be helpful too e.g. parent helplines and forums.

Working with All Parents

Parents often welcome support and information from school about ways in which they can support their child's emotional and mental health. In order to support parents we will:

- Highlight sources of information and support about common mental health issues on our school website;
- Ensure that all parents are aware of who to talk to, and how to get about this, if they have concerns about their own child or a friend of their child;
- Make our mental health policy easily accessible to parents;
- Share ideas about how parents can support positive mental health in their children through our regular information evenings;
- Keep parents informed about the mental health topics their children are learning about in PSHE and share ideas for extending and exploring this learning at home.

Supporting Peers

When a pupil is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In the case of self-harm or eating disorders, it is possible that friends may learn unhealthy coping mechanisms from each other. In order to keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided either in one to one or group settings. It will focus on information from the pupil who is suffering and their parents with whom we will discuss:

- What it is helpful for friends to know and what they should not be told;
- How friends can best support;
- Things friends should avoid doing / saying which may inadvertently cause upset;
- Warning signs that their friend help (e.g. signs of relapse).

Additionally, we will want to highlight with peers:

- Where and how to access support for themselves;
- Safe sources of further information about their friend's condition;
- Healthy ways of coping with the difficult emotions they may be feeling.

Training

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training in order to enable them to keep pupils safe.

Training opportunities for staff who require more in-depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due developing situations with one or more pupils.

Where the need to do so becomes evident, we will host twilight training sessions for all staff to promote learning or understanding about specific issues related to mental health.

Suggestions for individual, group or whole school CPD should be discussed with Joanna Redfern, our CPD Coordinator who can also highlight sources of relevant training and support for individuals as needed.

Policy Review

This policy will be reviewed every four years as a minimum. It is next due for review in September 2027.

This policy will always be immediately updated to reflect personnel changes.
